

Issued: 21 November 2021
Updated: 24 February 2022

In view of MOH's announcement on 24 February 2022, all measures that were originally planned to be implemented on 25 February 2022 and 4 March 2022 will be consolidated and implemented at one go, at a later date. The effective date will be announced subsequently. Until then, the current SMMs (republished in the corresponding sections) will continue to apply.

SAFE MANAGEMENT MEASURES FOR SPORT AND PHYSICAL EXERCISE & ACTIVITY FOR THE TRANSITION PHASE FROM 22 NOVEMBER 2021

1. On 20 November 2021, the Multi-Ministry Taskforce (MTF) announced the easing of our community safe management measures (SMMs) from 22 November 2021 as we exit the Stabilisation Phase into the Transition Phase.
2. On 14 December 2021, the MTF updated on the Omicron situation and announced some adjustments to the SMMs to safeguard against potential community transmission. Following the announcement, Sport Singapore is providing guidance regarding the SMMs concerning all sports and physical exercises & activities, and public & private sports & recreational facilities in Singapore for the period from 17 December 2021 onwards.
3. **From 1 January 2022**, all recovered persons from COVID-19 who are not fully vaccinated will only be given a 180-day exemption after infection to enter settings where vaccination-differentiated SMMs (VDS) are implemented.¹ In addition, unvaccinated individuals will not be able to perform a pre-event test (PET) in lieu of being fully vaccinated.

From 1 February 2022, Vaccination-Differentiated SMMs (VDS) will be expanded to cover all indoor sports facilities and all sport events, irrespective of event size. More details on VDS at indoor facilities and sport events can be found in paragraphs 9, 10 and 13 respectively.

SAFE MANAGEMENT MEASURES FOR SPORT & PHYSICAL EXERCISE / ACTIVITY

Permitted enterprises are responsible to ensure that SMMs are adhered to on their premises.

4. **Group Size.** Group activities are allowed for up to **5 individuals** (including instructor / coach) as follow:
 - a. Across all settings – indoors and outdoors regardless of masked or unmasked activity.
 - b. If any of the participants are not fully vaccinated or exempted from VDS², then indoor sport and physical exercise / activity for that group is prohibited. Please refer to paragraph 6 for treatment of unvaccinated children 12 years old and below.

¹Please refer to MOH's Press Release <https://www.moh.gov.sg/news-highlights/details/preparing-for-the-omicron-variant-14Dec2021> for details. This exemption does not apply to entry into VDS+Test events or activities i.e. individuals will still have to do Antigen Rapid Test (ART) prior to participation at these events.

² Individuals who have recovered from a COVID-19 infection, medically ineligible for COVID-19 vaccination and children aged 12 and below are exempted from VDS.

- c. Physical activity of a social nature (that does not involve any instructor / coach) should be kept to a limit of 5 participants.

With the change in the national group size, sports such as tennis, badminton, etc, can resume in 2v2 format.

For team sport pilot beyond a group of 5 and up to 10 fully vaccinated individuals, please refer to [paragraph 17](#).

5. Organised Classes / Programmes. For organised classes / programmes that are:

- a. Indoor masked and outdoor masked or unmasked: multiple groups of 5, up to 50 participants (including instructor / coach) or up to the capacity limit of the venue, whichever is lower can take place.
- b. Indoor unmasked: multiple groups of 5, up to 30 participants (including instructor / coach) or up to the capacity limit of the venue, whichever is lower, can take place. All participants have to be fully vaccinated³ for the class/programme to take place. If any of the participants is not fully vaccinated, then indoor unmasked activity for that group is prohibited.

6. Unvaccinated Children. Unvaccinated children are more vulnerable to the virus and need to be protected. Children 12 years old and below (born in or after 2010) who are not fully vaccinated will be allowed to participate in sport and physical exercise/activity classes/programmes/activities, as follows:

Setting	Group size	Class size
INDOORS UNMASKED	Up to 5 participants in any of the following combination: <ul style="list-style-type: none"> Unvaccinated children who are all from the same household Fully vaccinated⁴ individuals do not have to be from the same household as the unvaccinated children 	<ul style="list-style-type: none"> 1 group of 5 only (including instructor). There can be no multiple groups of 5 participants.

³ An individual is considered vaccinated if he/she a) has been fully vaccinated, i.e. received the appropriate regimen of World Health Organization Emergency Use Listing (WHO EUL) vaccines including their respective duration post-vaccination for the vaccine to be fully effective and b) had their vaccination records ingested in MOH's IT systems. Sinovac-CoronaVac will require a three-dose primary series regime, but all individuals who have taken two doses of Sinovac-CoronaVac should be regarded as fully vaccinated for 4 months after the second dose, or until 31 December 2021, whichever is later. Persons who have recovered from COVID-19 will be considered fully vaccinated 14 days after their single dose of the PSAR-authorized mRNA vaccines (i.e. Pfizer-BioNTech/Comirnaty, Moderna) or WHO EUL vaccines. Persons who have recovered from COVID-19 within the last 180 days, regardless of their vaccination status, may also be managed similarly to a fully vaccinated individual.

With the introduction of Workforce Vaccination Measures (WVM) from 1 January 2022, only fully vaccinated employees will be allowed at the workplace. For more info on WVM and work arrangements for unvaccinated employees, please refer to MOM's advisory at <https://www.mom.gov.sg/covid-19/advisory-on-covid-19-vaccination-in-employment-settings> and the FAQs at <https://www.mom.gov.sg/covid-19/frequently-asked-questions/covid-19-vaccinations>

From 1 December 2021, individuals who are medically ineligible for all COVID-19 vaccines under the National Vaccination Programme can take part in activities at VDS facilities (does not include participation under the "VDS+ART" Team Sport Pilot which will still require an ART) without needing to take a PET. Refer to <https://www.moh.gov.sg/covid-19/pet> for more details.

⁴ Refer to footnote 3

INDOORS MASKED	<p>[Updated] From 1 February 2022, all indoor sport facilities will have to implement VDS. As such, indoor masked activities involving unvaccinated children will be subjected to the following from the <u>same date</u>:</p> <ul style="list-style-type: none"> Up to 5 participants in a group in any of the following combination: <ul style="list-style-type: none"> Unvaccinated children who are all from the same household Fully vaccinated⁵ individuals do not have to be from the same household as the unvaccinated children 	<ul style="list-style-type: none"> Multiple groups of up to 5 pax in a group, up to 50 pax (including instructor) or up to the venue capacity limit, whichever is lower. There shall be no intermingling/ intermixing between the different groups.
OUTDOORS UNMASKED/ MASKED	<ul style="list-style-type: none"> Up to 5 participants in a group. Unvaccinated children in the group do not have to be from the same household. 	<ul style="list-style-type: none"> Multiple groups of up to 5 pax in a group, up to 50 pax (including instructor) or up to the venue capacity limit, whichever is lower. There shall be no intermingling/ intermixing between the different groups.

If a child in the stipulated age group (12 years and below) is fully vaccinated, he/she can proceed to participate in indoor masked/unmasked activities as per the general sport guidelines for fully vaccinated people.

7. Physical Distancing. While exercising and playing sport, the following physical distancing requirements apply:

- 2-metre physical distancing between individuals for all physical activities, unless the nature of activity requires the distance to be shortened.
- 2-metre physical distancing between groups for all physical activities.
- No cross-mixing or cross-playing between groups i.e. no modified versions of games where a ball is being played between two groups.

8. Venue Capacity and Density. Sport/recreational facilities can only admit a maximum number of persons according to its Gross Floor Area based on 10 Sqm per person⁶, up to a maximum of 50 persons (not inclusive of staff). No facility, regardless of size, shall admit more than 50 persons at any single point in time (not inclusive of staff). However, large complexes

⁵ Refer to footnote 3

⁶ The Gross Floor Area includes exercises spaces, as well as other spaces such as changing rooms, rest areas within the facility. Facilities smaller than 50 sqm can admit up to 5 persons but must adhere to distancing rules; the 5 persons do not include staff.

or multi-function premises such as country clubs or larger premises, may treat different parts of their premises as separate facilities, provided that they are well separated by physical barriers such that intermingling is not possible. Each of these facilities are to have separate TraceTogether-only SafeEntry (TT-only SE) or SafeEntry Gateway (SEGW) check-in & check-out, as well as other screening provisions.

9. **VDS at Indoor Sport Facilities.** From 1 February 2022, VDS will be expanded to cover all indoor sports facilities. Permitted enterprises operating in an indoor setting are to implement VDS at their premises. Facilities that do not implement checks on vaccination status will not be allowed to operate. Furthermore, a valid PET result will no longer be accepted in lieu of 'fully vaccinated status' for VDS purposes. For treatment of unvaccinated children 12 years old and under, please refer to paragraph 6.

10. Permitted enterprises that implement VDS are responsible for conducting checks on the vaccination status of all staff and participants. Beyond the usual screening measures such as ensuring that every person who enters their premises perform their TraceTogether-only SafeEntry (TT-only SE) and SafeEntry Gateway (SEGW) check-in & check-out, they are to ensure that these persons have their vaccination status checked and recorded manually or electronically. Persons who do not have their vaccination status verified will be denied participation in indoor activities. Permitted enterprises are to set up proper checking protocol at their access control points.

11. **Enhanced SMMs for Indoor Facilities.** Operators, staff, participants and instructors of indoor facilities will also have to adhere to an enhanced set of SMMs as per Annex.

12. **Large Group Outdoor Classes.** Approved large outdoor classes at public spaces such as parks and HDB common areas can continue, subject to the venue size and SMM requirements as stated in this guidance. All instructors must also be registered with Sport Singapore via <https://circle.myactivesg.com/programmes/classes/coaches/outdoor-classes-instructor-registration>. Subsequent approval from facility owner needs to be sought before activities can be conducted.

13. **Sport Events.** From 1 February 2022, all Sport Events, irrespective of event size, must implement VDS in order to proceed⁷.

- a. Spectator Sport Events. Spectator sport events, such as Singapore Premier League football matches can proceed with up to 1,000 spectators if all spectators are fully vaccinated⁸. Spectators will be in zones of up to 100 persons.
- b. Mass Participation Sport Events. Mass participation sport events, such as mass runs, open-water swims, cycling and triathlon events, can proceed with up to 1,000 participants per session⁹, if all participants are fully vaccinated¹⁰. Participants will be organised in waves of up to 100 persons.

⁷ Individuals who have recovered from a COVID-19 infection, medically ineligible for COVID-19 vaccination and children aged 12 and below are exempted from VDS. Unvaccinated children aged 12 and below must only be in the same group as other children in their household.

⁸ Refer to footnote 3

⁹ Different sessions are required to be adequately separated by time to avoid the congregation of participants at the venue and its vicinity. Organisers may propose the number of sessions and time interval between sessions to ensure safe participation, which may vary depending on context.

¹⁰ Refer to footnote 3

At this juncture, mass participation sport events will not be allowed to have invited spectators. Organisers are to put in place measures to prevent the spontaneous gathering of onlookers for such events.

- c. Sport Competitions & Tournaments refer to competitions involving timed races or head-to-head matches where there could be multiple heats or qualifying rounds ("sessions"). Such events can continue but must not exceed 50 persons in each facility at any single point in time. Organisers are advised to arrange competitions with different sessions, adequately separated within a day (i.e. at different times of a day) or across multiple days, to avoid congregation.

Each match is allowed to have up to 5 persons in the field of play at any single point in time. For indoor competitions or activities, only fully vaccinated¹¹ persons may participate in such events.

For such sport competitions and tournaments, spectators are permitted, but must comply with the requirements at paragraph 13(a) above.

14. At sport events where public speaking is necessary, such as by the guest-of-honour or an event emcee, the speaker can be unmasked as long as he/she maintains a distance of at least 2 metres from the audience whilst speaking. The speaker will have to be masked after delivering his/her speech. To be clear, this provision does not apply to an instructor/coach/referee unmasking to give instructions.

15. All sport events that involve more than 50 persons in total (including participants, spectators, officials, event crew and support staff) will need to be endorsed by Sport Singapore before they can be conducted. Organisers will have to submit an application to Sport Singapore using the Sport Event Application form and emailing it to SPORT_Covid@sport.gov.sg at least 14 days prior to the start of the event to give time for evaluation and discussion. Organisers are advised not to carry out related marketing/publicity efforts before receiving endorsement from Sport Singapore, as the event may require modifications before it may proceed.¹²

16. Sport Singapore's endorsement is only for the sport event SMMs. Organisers will need to seek further approval from facility owner / relevant agencies before their event can proceed. Events that were previously endorsed by Sport Singapore will need to have their SMMs updated and organisers are to resubmit their plans using the prescribed form for endorsement by Sport Singapore.

17. Pilot Resumption of Team Sports under Vaccination-Differentiated SMMs (VDS) + Test (VDS+Test) Protocol. From 10 November 2021, a "VDS+Test" pilot was introduced to allow up to 10 fully vaccinated persons (including players, umpires, linesmen, etc.) to play together in controlled and supervised settings. Under this pilot,

- a. Fully vaccinated individuals who have received the appropriate regimen of World Health Organisation Emergency Use Listing (WHO EUL) vaccines including their respective duration post-vaccination for the vaccine to be fully effective and had their vaccination records ingested in MOH's national IT systems, and

¹¹ Refer to footnote 3

¹² Organisers will be responsible for the costs of the event (including the additional costs of modifications), and/or compensation to participants arising from event postponement or cancellation.

- b. those who have recovered from COVID-19, can participate.

All participants will be required to produce a valid negative self-administered ART result taken on-site to show to the venue staff prior to the start of the game. If they are fully vaccinated, a valid Pre-Event Test (PET) result taken at MOH approved Covid-19 test provider or an ART result taken at Quick Test Centre, may be used in-lieu of the ART on-site. The negative result needs to be reflected in the TraceTogether or Health Hub app and be within its 24-hour validity window till end of the game.

Unvaccinated individuals, including the medically ineligible and unvaccinated children 12 years old and below, are not allowed to participate even if they have a valid negative PET result. To be clear, children 12 years and below who are fully vaccinated can participate in VDS+Test games and will be subjected to an onsite self-ART before the start of the game.

This pilot will only be carried out (i) during selected timeslots at designated ActiveSG and People's Association's (PA) facilities, and (ii) selected SportSG-approved private facility operators across a range of barrier and direct contact team sports (e.g. 5v5 basketball / futsal / volleyball) so that fully vaccinated individuals can enjoy team sport safely. For more details on slots available for booking at ActiveSG and PA facilities, please visit:

<https://www.myactivesg.com/Facilities/Sport-Centres/Pilot-Resumption-of-Team-Sports-under-VDSplus-Framework> and <https://www.pa.gov.sg/team-sports-pilot>

Enforcement officers and safe distancing ambassadors will conduct regular spot checks at the designated venues to ensure compliance with the required SMMs by the participants.

To be clear, team sport formats in other unsupervised settings will continue to adhere to the prevailing national social gathering group size of 5 persons.

18. In addition to the SMMs under the preceding paragraphs, other SMMs will continue to be in place, and should be complied with. These include, but are not limited to:

- a. Mask wearing. Masks should be worn as a default. Masks may be taken off when performing strenuous activity, and it must be put on immediately after the completion of high intensity sport and physical activities.
- b. Intermingling to be avoided in changing rooms / toilets. Individuals should not intermingle with others and linger within the facilities. Masks must be worn when one is changing in and out of one's sport attire / swimwear. If a mask is removed during shower or face-washing, it is to be worn promptly after. Changing rooms and toilets must be closed off if individuals cannot comply with these SMMs.
- c. Sharing of common equipment should be minimised. The sharing of equipment should be minimised as far as possible. The equipment should be wiped down / sanitised before passing on for use by the next user. This includes equipment such as weights and balls.
- d. Facilitating contact tracing. Operators and instructors are to maintain a complete set of data that clearly record how all participants are segregated into groups of up to 5 persons. Recent cases have revealed that sport and exercise operators and instructors have not been able to provide the required information, hampering contact tracing by the authorities. It is also the statutory responsibility of operators and instructors to ensure that all participants are properly checked in by

TraceTogether-only SafeEntry (TT-only SE) or SafeEntry Gateway (SEGW). Where the activity permits (e.g. for spin classes), participants are to carry their devices such as TT Tokens to aid contact tracing. Even if an activity does not allow carriage of such devices, operators and instructors are to take steps to place the devices together to reflect group arrangement.

- e. Reducing physical interaction & hygiene and ensuring safe distancing. Owners or operators of facilities are responsible for ensuring SMMs are implemented, and that their patrons/users comply. Facility owners/operators must:
 - i. Organise human traffic flow and space management to ensure that the mixing of groups is minimised to transient contact.
 - ii. Put in place measures to minimise crowding or mixing at common facilities e.g. toilets. Where possible, specific common facilities should be designated to specific zones so that attendees from different zones do not mix when using such facilities.
 - iii. TraceTogether-only SafeEntry (TT-only SE) or SafeEntry Gateway (SEGW) must be implemented for participants and visitors. All participants and staff are to use either the TraceTogether app or the TraceTogether Tokens for check-in and check-out. Enforcement of this will be stepped up to ensure full compliance by all permitted enterprises.
 - iv. Frequently disinfect common spaces and interactive components (e.g. smart kiosks, turnstiles, changing benches, hooks for clothes, etc.). Operators are strongly encouraged to adopt good sanitation and hygiene practices to achieve the SG Clean quality mark.
 - v. All indoor premises should refer to the latest guidance on improving ventilation and indoor air quality in buildings amid the COVID-19 situation, available at: <https://go.gov.sg/bca-circular-improving-ventilation-iaq>
 - vi. Place hand sanitisers in close proximity of the facility entrance and high-touch surfaces like door handles. Attendees should be encouraged to sanitise their hands before entering and upon leaving the facility.
 - vii. Ensure that participants do not shout while engaging in physical activities. This is because shouting increases the risk of transmission via droplets.

ROSTERED ROUTINE TESTING (RRT) FAST & EASY TESTING (FET) FOR SPORT AND FITNESS SECTOR

19. From 18 February 2022, RRT FET regime will be streamlined to focus only on settings catering to vulnerable groups. In view of this all workforce under the RRT FET for sport and fitness sector, will no longer be required to continue testing from 18 February 2022. However, those who are employed in third-party vendors in entities catering to vulnerable groups such as children below 5 years old, e.g., Preschools, Early Intervention centres, and Private Education Institutions, will still be subjected to RRT. More details can be found on [https://www.sportsingapore.gov.sg/COVID19/Fast-and-Easy-Testing-\(FET\)-Regime](https://www.sportsingapore.gov.sg/COVID19/Fast-and-Easy-Testing-(FET)-Regime)

TOWARDS A COVID-19 RESILIENT NATION

20. Singaporeans are urged to remain vigilant and observe safe distancing measures in place to minimise community transmissions. We all have a part to play in keeping COVID-19 at bay, and protect ourselves and our loved ones.
21. Government agencies will be conducting inspections. Enforcement action(s) under the COVID-19 (Temporary Measures) Act and the Infectious Diseases Act will be taken against businesses or individuals who fail to comply with safe management measures.
21. For the latest updates on COVID-19 for sport and physical exercise & activity, please visit <https://www.sportsingapore.gov.sg/Newsroom/Media-Releases>. For queries, members of the public can email the Sport Singapore QSM at <https://members.myactivesg.com/feedback> or call 1800-344-1177 during office hours (Mondays to Fridays, 9.00am to 6.00pm).
22. This guidance supersedes all advisories issued by Sport Singapore before this date.

- End -

ANNEX

ENHANCED SAFE MANAGEMENT MEASURES (SMMs) FOR SPORT AND PHYSICAL ACTIVITIES FOR INDOOR FACILITIES

Operators will have to comply with all the following SMMs:

- a. All participants, including instructors and staff, must be properly masked at all times, unless they are engaged in strenuous activities. From 1 February 2022, VDS will be expanded to cover all indoor sports facilities. Permitted enterprises operating in an indoor setting are to implement VDS at their premises. Facilities that do not implement checks on vaccination status will not be allowed to operate. For treatment of unvaccinated children 12 years old and under, please refer to paragraph 6.
- b. Staggered class start times to allow for a minimum of 15 minutes between classes and/or put in place separate routes if a premise is able to host multiple classes at a time. This is to prevent intermingling and mixing between participants before and after class. Operators will have to ventilate the room after each class ends. Participants must leave the premises immediately once they have completed their classes, or if they have exceeded a two-hour period.
- c. Organised programmes and classes are limited to no more than 30 (if unmasked) and 50 persons (if masked) or lower subject to the venue size and safe distancing requirements, and in groups of no more than 5 persons.
- d. Physical distancing between individuals exercising should be at least 2 metres, unless the nature of activity requires the distance to be shortened. A 2-metre physical distancing between different groups must be maintained at all times. There shall be no intermingling between groups before, during and after classes.
- e. The premises must be wiped down / sanitised before passing on to the next user to minimise the risk of COVID-19 transmission.
- f. Food and drink must not be supplied or consumed within the activity area, except if the consumption of a drink is necessary to preserve life or prevent injury in an emergency.
- g. Ensure that participants, including the instructor, do not talk loudly, sing, or shout while engaging in physical activities to minimise risk of transmission via droplets.
