

With effect from 14 June 2021

**Safe Management Measures for
Marriage Solemnizations and Wedding Receptions**

These Safe Management Measures aim to provide a safe environment for marriage couples and their guests during solemnizations and wedding receptions.

Wedding organisers (which could include venue operators/owners¹, wedding planners, the wedding couple and/or their relatives/friends) responsible for supplying or procuring the premises and any goods and services related to the solemnization or wedding (whether or not for reward and whether jointly or otherwise) are required to put in place the following safe management measures. **This set of Safe Management Measures applies with effect from 14 June 2021.**

1. As part of a calibrated reopening, from Monday, 14 June 2021, the safe management measures for marriage solemnizations and wedding receptions will move back to Phase 3 (Heightened Alert) in two steps, with the following attendees (including bride and groom but excluding Solemnizer and vendors):

	Step 1: From 14 Jun 2021 to 20 Jun 2021	Step 2: From 21 Jun 2021
Solemnizations		
Home	Up to 10 attendees or up to 5 visitors (whichever is higher)	Up to 10 attendees or up to 5 visitors (whichever is higher)
ROM/M Building	Up to 10 attendees	Up to 10 attendees
External venues	Up to 50 attendees (no pre-event testing (PET) requirement); or <ul style="list-style-type: none">From 51 to 250 attendees, with PET required for all attendees	<ul style="list-style-type: none">Up to 50 attendees (no PET requirement); orFrom 51 to 250 attendees, with PET required for all attendees
Wedding Receptions		
Home and ROM/M Building	Not allowed	Not allowed
External venues	Not allowed	<ul style="list-style-type: none">Up to 50 attendees, with PET required for wedding party (of up to 20 pax); orFrom 51 to 100 attendees with PET required for all attendees

2. Overview

¹ Includes the religious organisation if held in a place of worship.

- 2.1. Prevailing rules will continue to apply to each entity/ venue. Venue owners may determine if and when to allow marriage solemnizations and/or wedding receptions to be held in their premises, and may set additional conditions for their use, based on their capacity or ability to ensure safe management measures are implemented.
- 2.2. It is recommended that organisers appoint a Safe Management Officer to ensure that safe management measures are adhered to.
- 2.3. The Solemnizer will postpone the solemnization if safe management measures are not implemented or adhered to for the solemnization.
- 2.4. For external venues (excluding home, ROM/M Building and places of worship), organisers should prepare response plans to manage situations such as handling unwell guests. This includes ensuring staff are familiar with the procedures in the handling of unwell and/ or uncooperative guests.
- 2.5. Each couple is only allowed one marriage solemnization (without food and beverage) and one wedding reception (only allowed from 21 June 2021 onwards) with respect to their marriage.² Each event must be completed within the same calendar day, although the marriage solemnization and the wedding reception may be held on separate days.
- 2.6. Each marriage solemnization or wedding reception can only be held in a single venue managed by the same operator. The event may take place over multiple rooms within the same venue.
- 2.7. In a place of residence, only marriage solemnizations are allowed, and not wedding receptions (which involve food and beverage).

3. Limits on Number of Attendees

- 3.1. For marriage solemnization held in an external venue (i.e. outside the ROM/M Building or a place of residence), the maximum number of attendees in total for the entire event must not exceed:
 - (i) 50 attendees (no PET requirement); or
 - (ii) 250 attendees (with PET for all attendees).
- 3.2. **Wedding receptions remain prohibited as of 14 June 2021 and may only resume from 21 June 2021.** Wedding receptions can only be held at an external venue (i.e. outside the ROM/M Building or a place of residence), and the maximum number of attendees in total for the entire wedding reception must not exceed:
 - (i) 50 attendees (with PET for all members of the wedding party (see section 5.2 for details on the wedding party)); or
 - (ii) 100 attendees (with PET for all attendees).
- 3.3. The maximum number of attendees may be lower than the limits above, depending on venue capacity, safe distancing measures and/ or other factors to be determined by the venue owner/ operator or organisers.
- 3.4. The maximum number of attendees includes the couple and guests and excludes the Solemnizer, vendors and venue staff engaged to provide authorised services for the event. Vendors and venue staff should be kept to the minimum required.
- 3.5. If the total number of attendees at either the marriage solemnization or wedding reception exceeds 50 attendees, attendees must be split into either

² If the marriage solemnization and wedding reception are held back to back, this would be considered as the couple having done both with respect to their marriage.

multiple zones of up to 50 attendees, or across staggered timings with up to 50 attendees in each slot and at least 30 minutes between slots. The caps include the couple and the wedding party, and excludes the Solemnizer (for solemnization), vendors and venue staff engaged to provide authorised services for the event. Vendors and venue staff should be kept to the minimum required.

- 3.6. For marriage solemnizations held in a place of residence, the maximum number of attendees for the home solemnization must not exceed, including the couple, (i) 10 attendees, or (ii) 5 visitors, in addition to any residents, to the home where the marriage solemnization is held, whichever is higher, not counting the Solemnizer and vendors engaged to provide authorised services for the solemnization.^{3 4} Vendors should be kept to the minimum required.
- 3.7. For all marriage solemnizations, couples are to provide their guest and vendor list to the Solemnizer at least one day before the solemnization.
- 3.8. The guest list for marriage solemnizations and wedding receptions should be made available onsite for verification/checking.

4. PET Requirements

- 4.1. For marriage solemnizations involving between 51-250 attendees, PET will be required for **all attendees (including the wedding couple)**.⁵
- 4.2. For wedding receptions (only allowed from 21 June 2021 onwards):
 - Up to 50 attendees: PET is required for members within the wedding party, comprising up to 20 attendees (including the wedding couple)
 - Between 51 to 100 attendees: PET is required for all attendees (including the wedding couple).⁶
- 4.3. Organisers must ensure that the relevant attendees in line with paras 4.1 and 4.2 have a valid negative test result, or are exempted from PET e.g. if they are fully vaccinated, before allowing them to attend the marriage solemnization or wedding reception.
- 4.4. Organisers must ensure that the relevant attendees must get tested:
 - (i) Before entry to the solemnization or wedding reception; and
 - (ii) At most 24 hours before the end of attendance at the event.
- 4.5. The guidelines for PET are available at <https://go.gov.sg/pet>.

5. Group Size and Safe Distancing

- 5.1. For marriage solemnization or wedding reception held at external venues (i.e. outside the ROM/M Building or a place of residence), guests must be split into fixed groups of up to 5 attendees each, with no intermingling or mixing between groups. This will also apply within each zone and time slot.

³ For example, if there are 6 attendees currently living in your household, the 6 residents and an additional 5 visitors can attend a marriage solemnization in your home, i.e. total of 11 attendees.

⁴ From 14 June 2021, an individual must not permit to enter or remain in his or her place of residence more than 5 visitors on any single day. An exception is made for home solemnizations which remain subject to the limits in paragraph 3.6. However, if a place of residence has 5 or more visitors attending a home solemnization (as guests or vendors), then the household must not accept any more visitors that day to their place of residence.

⁵ Wedding couples need not have the same number of attendees for both their solemnizations and receptions, e.g. they can have a solemnization with 250 attendees and a wedding reception with 50 attendees.

- 5.2. An exception may be made for a designated core “wedding party” comprising up to 20 attendees (including the bride and groom), which is part of the overall attendee cap for marriage solemnizations/wedding receptions. Individuals in this wedding party may interact with one another within the party and may sit with one another at tables of more than 5 attendees. However, they must not intermingle or mix with other attendees outside the wedding party.
- 5.3. At least 1m safe distancing must be observed between groups, as well as between the “wedding party” and other groups, at all times, including for photo-taking.

6. Use of Face Masks

- 6.1. Organisers must ensure that attendees are wearing face masks in accordance with the prevailing national policy, with the exception of the bride and groom who may wear face shields during the course of the event instead. The bride and groom may also remove their face shield or mask for key moments (e.g. when exchanging vows or rings, kiss, march-in/ outs) as long as they maintain a safe distance of at least 2 meters from others at such times.
- 6.2. Masks may be removed momentarily for photo-taking.

7. Zoning Requirements

- 7.1. For marriage solemnization or wedding reception held in external venues (i.e. outside the ROM/M Building or a place of residence), the maximum number of attendees in each zone must not exceed a total of 50 attendees.
- 7.2. All attendees, including the couple and wedding party, must only be assigned to one zone each. Entering an unassigned zone is not allowed, except for the wedding couple who may do so briefly e.g. to take photos. Service staff and vendors may also cross between zones as necessary to perform their jobs.
- 7.3. Zones must be completely separated from one another by either a physical solid partition (at least 1.8m high, from wall to wall); or at least 3m physical spacing demarcated by continuous physical barriers (e.g. formed by plexiglass screens, barricade tape, queue pole stands linked by retractable belts).
- 7.4. There must be either a separate ingress/egress for each zone or staggered entrance/ exit timings so that attendees from different zones do not mix with one another during entry/ exit (including any movements in and out of the venue during the event).
- 7.5. Where possible, service staff should be designated to specific zones and avoid mixing with staff serving other zones.

8. Staggered Timing Requirements

- 8.1. For marriage solemnization or wedding reception held in an external venue (i.e. outside the ROM/M Building or a place of residence), the maximum number of attendees for each time slot must not exceed a total of 50 attendees.
- 8.2. Guests must be assigned to one time slot and can only be present during their scheduled time slot. They must leave by the end of their time slot.

- 8.3. An exception may be made for a designated core “wedding party” comprising up to 20 attendees (including the bride and groom), which is part of the overall attendee cap of 100 attendees for wedding receptions (from 21 June onwards). The wedding party may participate in multiple time slots, whereas all other guests must only belong to one time slot, so long as the number of people in that time slot remains capped at 50 attendees (including the wedding party)⁶.
- 8.4. There must be a minimum of 30 minutes between time slots, where cleaning and disinfection at the event space and other common areas (e.g. toilets) must be conducted.

9. Venue Set-up

- 9.1. The venue should be set up to ensure that the attendance limit requirements and safe distancing requirements (e.g. between different vendors and between vendors and attendees) are adhered to at all times.
- 9.2. There should be fixed seating for all attendees.

10. Management of Common Facilities

- 10.1. Organisers should put in place measures to minimise crowding or mixing at common facilities e.g. corridors, toilets. Where possible, specific common facilities should be designated so that attendees from different events held at the same premises do not mix when using such facilities.
- 10.2. Where possible, organisers should identify hotspots e.g. entry/exit points, washrooms, corridors, etc. for potential bunching and implement a control mechanism to prevent/ disperse crowding or compromise of safe distancing. This could include the deployment of ushers or Safety Ambassadors to remind attendees against clustering and loitering in common areas.
- 10.3. Premises hosting multiple events concurrently should put in place measures to ensure no inter-mixing between attendees of different events.

11. Food and Beverage

- 11.1. Food and beverage must not be served at marriage solemnizations.
- 11.2. At wedding receptions (from 21 June 2021):
 - Self-service buffets or staff-served food lines are not allowed. Food and beverage must be served to seated attendees. Sharing dishes/ platters are strongly discouraged. Attendees should not share cups/ cutlery/ utensils. No sale or consumption of alcohol is allowed after 10.30pm.

12. Live Performances and other high-risk activities

- 12.1. Live instrumental music is allowed (except for the playing of wind instruments), with the necessary safe management measures in place only for marriage solemnizations in a place of residence and indoor venues (except at ROM/M Building). Musicians should be kept to the minimum and must be masked at all times. Musicians should also minimize movement to ensure that safe distancing can be adhered to at all times.
- 12.2. Live performances remains disallowed at solemnizations in outdoor venues, i.e. places which are not enclosed, and at wedding receptions.

⁶ For example, guests can be distributed across three time slots as follows - 30 pax : 30 pax : 20 pax with the wedding party of 20 attendees present during all three slots for a total of 100 unique attendees.

- 12.3. Activities involving singing, wind instruments, dancing or loud talking/shouting remain disallowed at all events at all venues.

13. Attendance Control and Contact Tracing

- 13.1. Organisers should conduct temperature screening and checks on visible symptoms for customers at entrances, and turn away those with fever and/or those who appear unwell.
- 13.2. All attendees must check in to the event using TraceTogether-only SafeEntry.⁷ The venue owner/ operator or organisers should have a unique QR code for the event space, e.g. hotel ballroom or private room in a restaurant.
- 13.3. Organisers are encouraged to stagger the arrival and departure timings of attendees. Queuing in groups should be discouraged.
- 13.4. Organisers are encouraged to adopt contactless modes of operation where possible e.g. putting the seating arrangements online or on a board instead of a manned reception counter to minimise contact between individuals.

14. Ensuring Cleanliness and Hygiene

- 14.1. Before the start of each time slot and where applicable, the venue owner/ operator or organisers must clean and disinfect the event spaces, common facilities (e.g. toilets), tables and chairs before and after use, including high-touch surfaces such as handrails, door handles, lift buttons, etc.
- 14.2. Where applicable, the venue owner/ operator or organisers should provide disinfecting agents like hand sanitisers, disinfectant sprays, wipes, etc. for attendees and staff at common areas or areas with high-touch surfaces.
